

FEBRUARY NEWSLETTER

HAPPY RAMADAN

Welcome Message

Principal's Message – February Newsletter

Dear Parents,

In conversations about raising children, the word discipline often carries emotional weight. Many associate it with punishment, consequences, or control. Yet if we return to the dictionary definition, the word discipline simply means “teaching.” At its core, discipline is not about punishment – it is about guidance, instruction, and shaping character.

In the book *Positive Discipline* by Jane Nelsen, discipline is described as teaching children valuable social and life skills in a manner that is respectful and encouraging. It focuses on long-term growth rather than short-term obedience. The goal is not to make children comply out of fear, but to help them develop internal responsibility, self-regulation, and respect.

This distinction is important.

There is a difference between raising a happy child and growing a joyful human being. A happy child may feel pleased in the moment. A joyful human being understands boundaries, accepts expectations, takes responsibility seriously, and recognizes their role within a community. Joy rooted in responsibility lasts far longer than momentary happiness based on immediate gratification.

Rules and boundaries are not restrictions designed to limit children. They are structures designed to protect and guide them. Boundaries create safe spaces within which children are free to explore, express themselves, and take appropriate risks. When children understand clear expectations, they experience less confusion and fewer unnecessary disappointments. They learn what is acceptable, what is safe, and how their actions affect others.

In fact, boundaries often reduce hardship rather than create it. When children know the limits, they are less likely to face repeated rejection from peers or adults. They understand social norms. They develop emotional regulation. They learn that freedom exists within responsibility.

Equally important is modeling. Children learn far more from what we embody than from what we say. When parents speak about rules but disregard them in daily life, children receive mixed messages. If we expect calm voices, respectful communication, honesty, punctuality, or responsibility, we must demonstrate those values consistently ourselves. Modeling also requires reflection. Parents are encouraged to examine whether the rules in place are realistic, age-appropriate, and meaningful. When we test and embody the rules ourselves, we can better guide our children in how and when to apply them. This transforms rules from commands into shared family values.

When children grow up in environments where boundaries are clear, consistently modeled, and respectfully enforced, they develop:

- Self-discipline rather than imposed obedience
- Responsibility rather than entitlement
- Respect for others and themselves
- Resilience when facing challenges
- Courage to take thoughtful risks

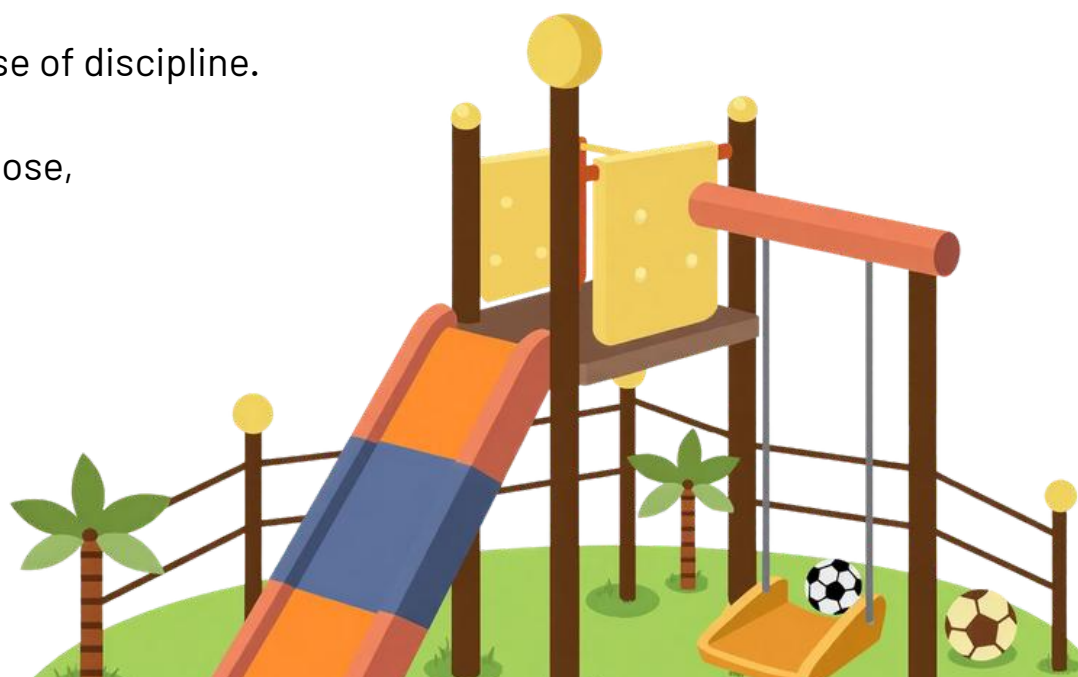

Discipline, in its true meaning, is an act of love. It prepares children not only to function within a family but to thrive within society. It teaches them that they both affect and are affected by those around them.

As parents and educators, when we embody the values we teach, uphold respectful boundaries, and guide rather than control, we are not just managing behavior – we are shaping character.

And that is the true purpose of discipline.

With partnership and purpose,

Lamia Hassanin

Up-coming Events

19th - Thursday → 22nd Sunday - March

Eid El Fetr - **Daycare Closed**

26th - Thursday - March

Mother's Day Event - **with Parents**

BUSY BUTTERFLIES

Teacher: Menna Ashraf

WHAT WE HAVE BEEN LEARNING

During the past period, the Butterflies class had a wonderful and exciting learning journey. The children learned about the police officer, the tools they use, how they help and protect us, and the important role they play in keeping our community safe. We also explored the different sounds of police cars, and the children enjoyed pretending to be police officers during our role-play activities.

We also learned about the chef and how chefs cook and prepare delicious meals. The children talked about different types of food and discovered the importance of eating healthy food to grow strong and stay active. They participated in fun and hands-on cooking activities, which helped develop their fine motor skills and teamwork. The children especially enjoyed preparing simple recipes and pretending to be little chefs.

For Valentine's Day, we celebrated love and kindness. The children learned that the heart shape is a special symbol of this occasion, and they happily created beautiful Valentine's gifts to share with their loved ones. It was heartwarming to see their excitement and creativity.

BUSY BUTTERFLIES

Teacher: Menna Ashraf

WHAT WE HAVE BEEN LEARNING

As we welcomed the holy month of Ramadan, the children learned about its meaning in a simple and age-appropriate way. They enjoyed preparing special Ramadan giveaways and proudly created their own colorful Ramadan lanterns (Fanous Ramadan), which added a joyful spirit to our classroom.

One of the most exciting events was our Pancake Race with the parents! It was a day full of laughter, energy, and happy moments. The children were thrilled to participate alongside their families, and everyone truly enjoyed the fun and friendly competition. It was a memorable experience that brought smiles to all of us.

We are so proud of our Butterflies for their enthusiasm, creativity, and wonderful participation throughout all these activities.

BUSY BUTTERFLIES

Teacher: Menna Ashraf

UPCOMING THEME

In the coming period, the Butterflies class will start a new and exciting topic about the four seasons: Spring, Summer, Autumn, and Winter.

The children will learn about the characteristics of each season, the changes in the weather, and how nature looks during every time of the year. We will talk about what we wear in each season and the different activities we enjoy, such as going to the beach in summer, playing in the rain during winter, watching leaves fall in autumn, and seeing flowers bloom in spring.

The children will participate in fun art and craft activities related to each season, explore seasonal colors, and engage in interactive discussions and sensory play to better understand the changes happening around them in a simple and enjoyable way.

We will also celebrate Mother's Day. The children will learn about the importance of mothers and their special role in our lives, as well as the values of love, appreciation, and gratitude. They will express their feelings through creative art activities and prepare simple, heartfelt gifts to present to their mothers with love. It will be a celebration full of warm emotions and beautiful moments that reflect our appreciation for all mothers.

We are excited to explore the beauty of every season together and create many fun and meaningful learning experiences.

BUMBLE BEES

Teacher: Grace Muringani

WHAT WE HAVE BEEN LEARNING

Over the past 4 weeks, our classroom has been buzzing with energy as I spent time getting to know our littles ones and forming special friendships with them. Each day has brought fresh opportunities to discover, create, and problem-solve together. Whether through hands-on activities, interactive lessons, or creative play, the Buzzing Bees have shown great enthusiasm and curiosity for learning.

Learning About the Seasons

This month, the Bees have been learning about the four seasons of the year.

- Winter: The children were very excited to experience winter first-hand. It was cold outside, so it was easy for the children to understand what winter weather feels like. We also talked about the warm clothes we wear in winter to stay cozy.
- Summer: The children loved learning about summer. We talked about the clothes we wear in summer and the fruits we can eat during this season. One of the favorite parts was talking about swimming in summer – the children got very excited!
- Autumn: We learned that autumn is the season of falling leaves and harvest. The children enjoyed looking at pictures of our fall event at the nursery to help them understand the season.
- Spring: We finished the topic with spring, where we talked about new life and growth, such as blooming flowers.

BUMBLE BEES

Teacher: Grace Muringani

WHAT WE HAVE BEEN LEARNING

Feelings Check

Every morning, we continue to do our "Feelings Check." This helps the children use words or expressions to share how they are feeling instead of crying. It also helps them learn to manage their emotions, which supports self-regulation.

Special Events

- Valentine's Day: February is the month of love, and we talked a lot about hearts. The children learned how showing love to family and friends can make the world a warmer place. They also practiced helping their families at home and their friends at school. The children decorated Valentine's presents to give to their loved ones. We hope everyone liked their special gift!
- Pancake Race: Thank you to all the parents who came to the Pancake Race. The children had so much fun seeing their parents participate whilst they cheered for them. Sharing the pancakes made the day even more special!
- Ramadan: The children had a great time decorating their own Ramadan crafts. They look beautiful in our classrooms!.

BUMBLE BEES

Teacher: Grace Muringani

UPCOMING THEME

Over the next six weeks, the Buzzing Bees will be exploring the exciting world of transportation! The children will learn about different vehicles—cars, buses, trains, and planes—and discover how they move from place to place.

Through songs, stories, and interactive play, the children will recognise and respond to familiar transportation sounds, such as a bus “beep beep” or a train “choo choo.” They will also be encouraged to express their own interests and preferences by choosing favourite vehicles and sharing what they like about them.

Our hands-on activities will support fine motor development as children practise control in holding and using jugs to pour (fueling up!), hammers for creative construction play, as well as books and mark-making tools to design roads, maps, and vehicles.

We look forward to a fun-filled journey of learning and discovery!

LUCKY LADYBIRDS

Teacher: Nahla Hassan

WHAT WE HAVE BEEN LEARNING

This month, we've been exploring the "All About Me" theme and we had a blast learning lots of new things about ourselves and our surrounding environment as our houses - we discovered the different rooms like the kitchen, bedroom, and living room, and explored the appliances, furniture, and all the fun things inside each room. We also checked out our neighborhood, learning about roads, transportation means, and the facilities around us like supermarkets, hospitals, and grocery stores. The kids loved identifying places they visit often.

We had a fun time learning about our bodies too, exploring body parts and our five senses - we even talked about different textures around us like soft, rough, and smooth. In the classroom, we went on a scavenger hunt to discover all the things we use every day - we named the furniture, stationery, and stations, and even started assigning some cool classroom chores to the kids to help them feel like big helpers.

We've also continued with Jolly Phonics Set 1, introducing new sounds and building vocabulary. The kids are doing great at identifying the new sounds and trying to catch up with all the new vocabulary.

A big thank you to all the parents who joined us for the Pancake Race - it was a fun event for everyone and a super-fun morning.

LUCKY LADYBIRDS

Teacher: Nahla Hassan

UPCOMING THEME

Looking ahead, we're excited to dive into the "Kingdom of Animals". We'll start with "Down to the Farm", exploring farm friends, followed by "Paws, Claws & Whiskers", where we'll learn about our pets and furry friends. Then, we'll venture "Into the Wild", exploring jungle animals and their habitats. Finally, we'll end the month "Under the Sea", discovering ocean creatures and their amazing world.

PLAYLIST

[Down In The Jungle](#)

[Under the sea playlist](#)

SPINNING SPIDERS

Teacher: Reem Taha

WHAT WE HAVE BEEN LEARNING

Our spinning spiders were too busy with their occupation theme. They enjoyed different occupations role play, such as doctor, engineer, dentist, vet, firefighter, teacher, astronaut, and chef. Their bank of vocabulary is huge, they can tell facts about each occupation, and they can describe what they want to be when they grow up. They enjoyed different activities about each occupation, some art crafts and some interactive play like spraying water on fire, making dough and making pizza. They also experimented, and they learned that when we add different materials they change.

Through our literacy programme, they can recognise S, A, T sounds, do an action for each sound, tell some words that start with each sound, and know the formation through tracing. They can count up to 20, and they can recognise numbers up to 6. We celebrated the holy month ramadan through decorating our class with their handmade lanterns, and they enjoyed the pancake race with their peers and family.

SPINNING SPIDERS

Teacher: Reem Taha

UPCOMING THEME

For the next few weeks, we are excited to begin our new theme, Dinosaurs! This fascinating topic will spark curiosity and imagination as the children explore the world of these amazing prehistoric creatures.

Through stories, role play, creative art, small world play, music, movement, and hands-on discovery activities, the children will learn about different types of dinosaurs, their sizes, features, and habitats. They will compare big and small dinosaurs, count dinosaur eggs, explore footprints, and use new vocabulary such as roar, stomp, huge, tiny, herbivore, and carnivore.

The children will also take part in imaginative play, creating dinosaur parks, going on "fossil hunts," and building habitats together. These experiences will encourage teamwork, problem-solving, communication, and creativity.

We will learn the names of different dinosaurs, what they looked like, and one interesting fact about each. They will also work together to create a Jurassic World classroom background, including a big volcano and hand-painted trees using their own hands. This activity encouraged creativity, teamwork, and fine motor skills.

SPINNING SPIDERS

Teacher: Reem Taha

UPCOMING THEME

Skills We Will Be Focusing On

- Personal & Social Development: playing cooperatively, talking about feelings, and learning how behaviour affects others
- Communication & Language: following longer instructions, joining in repeated story phrases, and using new vocabulary
- Physical Development: climbing, balancing, fine motor control, and practising good hygiene
- Literacy: recognising and saying letter sounds (Jolly Phonics Set 1) and beginning to form letters
- Mathematics: counting to 10, recognising numerals, comparing small groups, and exploring number composition
- Understanding the World: learning about the past and caring for our environment
- Expressive Arts: using tools creatively and developing imaginative storytelling.

How You Can Support at Home

- Read dinosaur stories together and encourage your child to repeat key phrases
- Practise letter sounds and look for them in books or around the house
- Count toys, steps, or snacks together
- Encourage imaginative play (roaring, stomping, building habitats!)
- Talk about feelings and model kind, calm problem-solving

SPINNING SPIDERS

DREAMY DRAGONFLIES

Teacher: Nourhan Youssef

WHAT WE HAVE BEEN LEARNING

This month, the Dragonflies continued exploring the theme "All About Me," with a special focus on Family Members and People Who Care for Me. Through discussions, stories, and hands-on activities, the children learned about different family members and explored a variety of family structures. They talked about belonging, love, and care, developing an understanding that every family is unique and that what matters most is feeling safe, loved, and supported by the people who care for us.

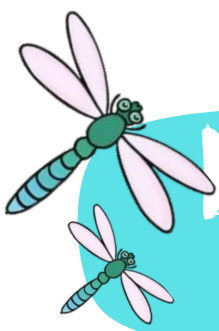

As part of our learning and seasonal celebrations, the children enjoyed creating beautiful Ramadan decorations, including lanterns, stars, and moons, as well as small and large lanterns to decorate the school. They also learned about pancake ingredients and enjoyed a special classroom visit from the daycare principal, who made pancakes together with the children. The day before, the children had great fun watching the parents participate in a pancake race, cheering for them and celebrating their achievements together.

Personal, Social, and Emotional Development

This month, children focused on describing themselves in positive ways and talking about their abilities. Through the "Don't Spill the Cup" game, children introduced themselves and shared their favourites, such as favorite colors, shapes, animals, and foods. These activities encouraged confidence, turn-taking, listening skills, and positive self-expression through games and daily conversations.

Communication and Language

Children developed their ability to use language to imagine and recreate roles and experiences in play situations. The role-play area was set up as "My Home," where children explored familiar family roles using dolls, kitchen items, and household props. Through pretend play, they described actions, recreated daily routines, and shared experiences from home, strengthening their communication and storytelling skills.

DREAMY DRAGONFLIES

Teacher: Nourhan Youssef

WHAT WE HAVE BEEN LEARNING

Physical Development

In Physical Development, children practiced handling tools, objects, construction materials, and malleable materials safely and with increasing control. Activities such as Family Dough Mats and Emotion Playdough Mats supported fine motor development while allowing children to creatively represent family members and emotions.

Literacy

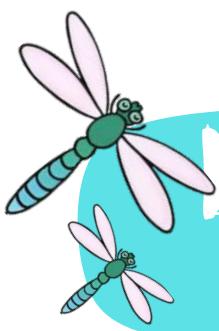

The children focused on linking sounds to letters and naming and sounding letters of the alphabet through engaging phonemic awareness activities, including Say the Sounds of the Hidden Letters and Roll-a-Letter games. These playful experiences supported early reading and sound recognition skills.

Mathematics

In Mathematics, children explored counting actions that cannot be moved by counting body movements such as blinks, nods, toe taps, and arm swings. Counting aloud while performing actions helped strengthen number awareness and one-to-one correspondence.

Knowledge and Understanding of the World

Children explored family customs and routines by recreating family mealtimes through role-play activities. They discussed what happens during meals at home, such as sitting together, helping set the table, or sharing special family traditions, encouraging appreciation and respect for different family experiences.

DREAMY DRAGONFLIES

Teacher: Nourhan Youssef

UPCOMING THEME

The Dragonflies are going to begin an exciting new theme: "The Garden." During this topic, children will explore the world of plants and planting. They will learn about the planting process, the plant life cycle, and what plants need in order to grow, such as water, sunlight, soil, and care. Children will also be introduced to different seed names and will discover why plants are important for our planet and how we can help protect and care for them.

Personal, Social, and Emotional Development

Children will focus on explaining their own knowledge and understanding and asking appropriate questions. They will be encouraged to share ideas, express what they already know about plants, and ask questions to deepen their curiosity and learning.

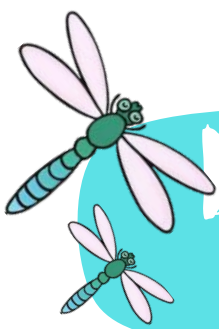

Communication and Language

The focus will be on maintaining attention, concentrating, and sitting quietly during appropriate activities, especially during story time, discussions, and planting explorations.

Physical Development

Children will begin to form recognizable letters, developing early writing skills through mark-making and garden-themed writing activities that strengthen fine motor control.

DREAMY DRAGONFLIES

Teacher: Nourhan Youssef

UPCOMING THEME

Literacy

In Literacy, children will learn that information can be retrieved from books and computers. They will explore simple digital resources to find facts about plants and gardens.

Mathematics

Children will work on recognizing numerals that are personally significant, such as numbers related to their age, groups, or counting activities connected to planting and seeds.

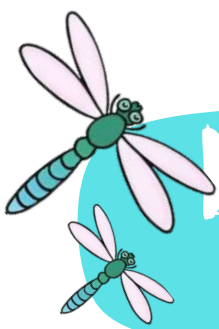

Expressive Arts and Design

Children will explore creativity by discovering what happens when colours are mixed, using painting activities inspired by flowers, gardens, and nature.

Knowledge and Understanding of the World

The children will develop their observation skills by talking about things they notice in nature, including plants, animals, and natural or found objects, helping them make connections between classroom learning and the real world.

ماذا تعلمنا

قَضَى أَطْفَالُنَا أُسْبُوعًا مُمْتِعًا وَمِلِيًّا بِالتَّعَلُّمِ وَالِاكْتِشَافِ، تَعَرَّفُوا خِلَالَهُ عَلَى حَرْفَيْنِ جَدِيدَيْنِ بِأَسْلُوبٍ شَيْقِي يَجْمَعُ بَيْنَ اللَّعِبِ وَالتَّعَلُّمِ. تَعَلَّمْنَا مَعًا نُطْقَ الحُرُوفِ، وَالتَّمْيِيزَ بَيْنَهَا، وَرَبَطَهَا بِكَلِمَاتٍ مِنْ بِيئَتِنَا الْمُحِيطَةِ.

🎯 الأهداف التعليمية:

- أَنْ يَتَعَرَّفَ الطِّفْلُ عَلَى شَكْلِ حَرْفِي الثَّاءِ (ث) وَالْجِيمِ (ج) فِي أَوَّلِ الْكَلِمَةِ وَوَسَطِهَا وَآخِرِهَا.
- أَنْ يَنْطِقَ الطِّفْلُ صَوْتِ الحَرْفَيْنِ نُطْقًا صَحِيحًا.
- أَنْ يَرْبِطَ الطِّفْلُ الحَرْفَ بِكَلِمَاتٍ تَبْدَأُ بِهِ.
- أَنْ يَتَدَرَّبَ الطِّفْلُ عَلَى كِتَابَةِ الحَرْفَيْنِ بِشَكْلِ صَحِيحٍ.
- أَنْ يُمَيِّزَ الطِّفْلُ بَيْنَ الحَرْفَيْنِ وَبَاقِي الحُرُوفِ.

الأدوات التعليمية

بَطَاقَاتُ الحُرُوفِ وَالْكَلِمَاتِ - صُورٌ تَعْلِيمِيَّةٌ مَلَوْنَةٌ - أَقْلَامٌ وَأَوْرَاقٌ لِلرَّسْمِ وَالْكِتَابَةِ - سَبُّورَةٌ.

📝 **كَلِمَاتُ حَرْفِ الثَّاءِ (ث):** ثَوْب - ثَلَاجَةٌ - ثُوم - ثِمَار - ثُعْبَان

📝 **كَلِمَاتُ حَرْفِ الْجِيمِ (ج):** جُنْدِي - جَمَل - جَرَس - جُبْن - قَدَم

🐘 تَعَلَّمْ مَعَ الْمَعْلُومَةِ:

تَعَرَّفَ الْأَطْفَالُ عَلَى كَلِمَةِ جَمَلٍ، وَتَعَلَّمُوا أَنَّهُ يُسَمَّى سَفِينَةَ الصَّحَرَاءِ؛

لأنَّهُ يَسْتَطِيعُ السَّيْرَ فِي الصَّحَرَاءِ لِمَسَافَاتٍ طَوِيلَةٍ، وَيَتَحَمَّلُ الْعَطَشَ وَالْحَرَارَةَ، وَيُسَاعِدُ

الْإِنْسَانَ فِي نَقْلِ الْأَشْيَاءِ.

كَمَا تَعَلَّمَ الْأَطْفَالُ أَنَّ الْقَدَمَ جُزْءٌ مِنَ الرَّجْلِ، وَاسْتَمْتَعُوا بِسَمَاعِ صَوْتِ الْجَرَسِ وَالتَّعَرَّفَ عَلَى

مَعْنَاهُ. 🛎

🌟 مَا تَعَلَّمْنَاهُ هَذَا الْأُسْبُوعَ:

أَظْهَرَ أَطْفَالُنَا تَفَاعُلًا رَائِعًا مَعَ حَرْفِي الثَّاءِ وَالْجِيمِ، وَأَصْبَحُوا أَكْثَرَ قُدْرَةً عَلَى نُطْقِهِمَا، وَتَمْيِيزِهِمَا،

وَاسْتِخْدَامِهِمَا فِي كَلِمَاتٍ بَسِيطَةٍ بِكُلِّ فَخْرٍ وَحَمَاسٍ. 🌟
