Principal's Message – January Newsletter

Honoring Every Child's Unique Journey of Growth

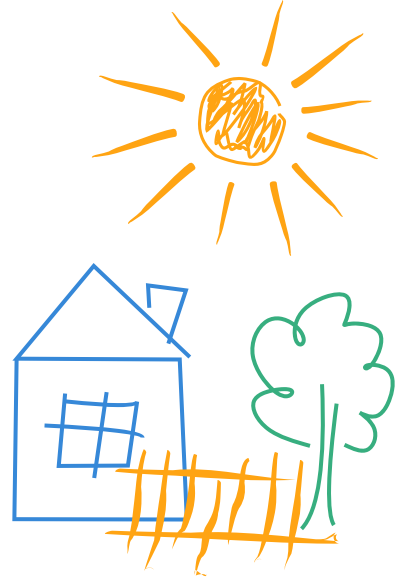

Dear Parents,

As parents and caregivers, we all share the same heartfelt wish: to see our children happy, confident, and thriving. At our daycare, we hold this intention close, and it guides everything we do. The Early Years Foundation Stage (EYFS) framework reminds us that young children learn best when their development is supported in a holistic and nurturing way—honoring their emotional, social, physical, and cognitive growth together.

Our curriculum is thoughtfully designed to offer children rich, balanced experiences across all areas of learning, including Personal, Social and Emotional Development, Communication and Language, Physical Development, Literacy, Mathematics, Understanding the World, and Expressive Arts and Design. Through play, relationships, routines, and exploration, children are given daily opportunities to build confidence, curiosity, independence, and a love for learning.

It is reassuring to know that children tend to follow a similar sequence of development—they learn to walk before they run, to babble before they speak. At the same time, it is equally important to remember that the pace of development is deeply individual. Some children take their steps quickly, others more thoughtfully and slowly. Both paths are natural and worthy of respect. The EYFS encourages us to observe each child carefully and respond to their needs with patience and understanding, rather than expectation or urgency.

Welcome Message

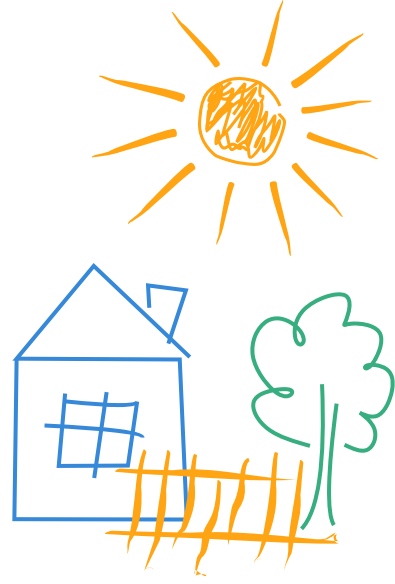

It is also very natural—for all of us—to notice differences between children. Parents often wonder how their child compares to a sibling or a friend in class. These thoughts usually come from a place of care and concern. However, comparison can unintentionally blur our vision. It may shift our attention away from what a child is capable of and toward what we feel they should be doing. Over time, this can create pressure for both the child and the adult, and may affect a child's confidence in their own abilities.

The EYFS gently guides us to focus on progress rather than comparison. When we take time to see children as individuals, we begin to notice their unique strengths, efforts, and small but meaningful achievements. This perspective allows children to feel valued for who they are, not measured against others. When children feel accepted and supported at their own pace, they are more likely to engage, take risks, and enjoy learning.

By offering children time, encouragement, and trust, we help them build a strong sense of self. Growth becomes something they feel proud of, not pressured by. This sense of emotional safety in early childhood lays the foundation for confidence, resilience, and a healthy relationship with learning later in life. We truly value our partnership with you. Your trust, observations, and conversations with us help us support your child in the most meaningful way. Together, guided by the principles of the EYFS framework, we can create an environment where every child feels seen, supported, and free to grow in their own beautiful way.

Welcome Message

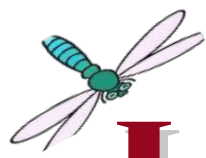

Gentle Ways to Support Your Child at Home

- **Notice effort and progress:** Small steps are powerful signs of growth.
- **Be kind to yourself and your child:** Development is a journey, not a race.
- **Avoid comparisons:** Every child brings their own strengths and timing.
- **Keep routines loving and predictable:** They offer children a sense of safety.
- **Encourage independence with patience:** Trying matters more than getting it right.
- **Stay connected:** Listening and talking together builds confidence and emotional understanding.

BUSY BUTTERFLIES

Teacher: Menna Ashraf

WHAT WE HAVE BEEN LEARNING

We have successfully completed our Jungle Theme, and the children learned a lot through fun and engaging activities. They explored jungle animals, their sounds, body parts, and how they move. For example, they learned that the elephant has a big trunk, the giraffe has a long neck, and the monkey moves a lot and comes in different colors.

After finishing the jungle theme, we started our new theme about Community Helpers. The children learned about the doctor's role, why this job is important, and the tools doctors use in their daily work.

We also had a very special visit from a real doctor who came from the clinic to our classroom and gave the children an interactive session. The doctor introduced the children to medical tools and explained how they are used, such as the stethoscope, gloves, thermometer to measure temperature, and bandages. The children also learned how to clean a wound and cover it with a bandage if they get hurt. This experience was very enjoyable and exciting for the children, especially because they met a real doctor.

BUSY BUTTERFLIES

Teacher: Menna Ashraf

WHAT WE HAVE BEEN LEARNING

Currently, we are learning about firefighters and their important role in protecting us from fires, as well as the tools they use to keep our community safe. We will be having a visit from the fire truck and fire fighter here on campus for the children to explore and learn about their cool gadgets; the hose, the extinguisher and rubber boots and costume.

In addition, we celebrated the 100th Day of School, and the children enjoyed a fun activity where they decorated the number 100.

Through the Community Helpers theme, children learn simple and age-appropriate information about:

- Who community helpers are
- Where they work
- The tools they use
- How they help and serve people in our community
- Why they are important to us

This theme helps the children better understand the world around them and appreciate the roles of people who help keep our community safe and healthy.

Teacher: Menna Ashraf

UPCOMING THEME

In the coming period, the children will learn about the police officer, the tools they use, how they help and protect us, and the sounds of police cars.

We will also learn about the chef and how chefs cook and prepare delicious meals. The children will explore the importance of eating healthy food and will enjoy many fun cooking activities, such as making pizza, cupcakes, and creating a chef's hat.

In addition, we will celebrate Valentine's Day and learn that the heart shape is a special symbol for this occasion.

We will also celebrate Ramadan and preparing giveaways related to this beautiful and meaningful month

WHAT WE HAVE BEEN LEARNING

All About Me – First Two Weeks of January

During the first two weeks of January, we completed our All About Me theme with a strong focus on helping the children build self-awareness, communication, independence, and emotional security. We explored healthy and unhealthy foods and talked about healthy daily habits, including handwashing, keeping our bodies clean, and drinking water to stay hydrated. These activities supported early understanding of self-care and helped children begin to recognize how to take care of their bodies in simple, meaningful ways.

Through colouring and hands-on activities, the children strengthened their fine-motor skills while expressing themselves creatively. We also explored family life through activities such as creating a simple family tree, crafting a home with our family members, and participating in other related to daily family routines. which helped children feel a sense of belonging and comfort as they shared familiar experiences and connected classroom learning to their home life.

A key focus during this theme was building relationships and social skills. We worked intentionally on sharing strategies, such as taking turns, waiting, and using simple words or gestures. We supported the children as they built relationships with one another, creating a safe and trusting classroom environment.

Each day, we had a feelings check-in, where children were encouraged to express how they were feeling using words, facial expressions, or gestures. These daily check-ins helped the children practice communication and reassured them that their feelings matter and that we are always here to support them.

BUMBLE BEES

Teacher: Seba Jessri

UPCOMING THEME

Seasons – Last Two Weeks of January

During the last two weeks of January, we transitioned into our Seasons theme, focusing on weather and clothing, while continuing to strengthen social, emotional, and communication skills.

Through songs, stories, sensory play, and discussions, the children explore different types of weather and learn what clothes we will wear in each season. These activities supported language development, cognitive awareness of the environment, and decision-making, as children practiced choosing clothing and expressing preferences.

We continued working on sharing, turn-taking, and cooperative play, helping the children practice positive interactions with their peers. Relationship-building remained a daily focus as the children learned to play alongside each other, communicate their needs, and build trust within the classroom. Daily feelings check-ins continued throughout this theme, supporting emotional awareness and helping children communicate their needs. These moments also allowed me to better understand each child and ensure they feel safe, supported, and cared for every day. We are very proud of the children's growth this month and will continue to support their social, emotional, and developmental progress through warm relationships, consistent routines, and meaningful learning experiences.

LUCKY LADYBIRDS

Teacher: Nahla Hassan

WHAT WE HAVE BEEN LEARNING

During the first week of the month, we wrapped up our previous theme and had a blast with exciting winter crafts and activities.

All About Me: We started exploring the theme "All About Me" and it has been a fun journey so far.

Family Time: Kids created a Family Tree, sharing stories about their families, parents, siblings, and grandparents, which was lovely to see and listen to.

Feelings and Emotions: We made Feeling Puppets to help us share and explore different feelings, from happy to sad, and everything in between.

- **Pajama Day:** We got cozy having a movie time with a yummy rice pudding snack.

- **Literacy:** We've started introducing the letters S and A, and the kids are doing great.

LUCKY LADYBIRDS

Teacher: Nahla Hassan

UPCOMING THEME

We're looking forward to exploring more about ourselves and our environment.

My House: We'll be exploring the different rooms and what's inside our homes.

My Body: Learning about body parts and our amazing senses.

My Classroom: Discovering our classroom family and all the fun things we do together.

Literacy: We will continue with Jolly Phonics Set 1, building on the sounds we learned so far.

SPINNING SPIDERS

Teacher: Reem Taha

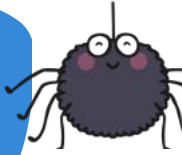

WHAT WE HAVE BEEN LEARNING

Our Crawling Spiders began by revisiting our Garden theme, where the children explored planting and growth, cared for plants, observed bugs and worms, and learned about flowers, weather, and harvest. Through these hands-on experiences, they developed early scientific understanding, expanded their vocabulary, strengthened their motor skills, and practised teamwork and kindness. The children were then excited to begin our new Occupations theme, learning about jobs such as firefighters, police officers, mechanics, carpenters, and teachers. They shared simple facts about each role and learned the names of tools and equipment used in these jobs, using new vocabulary in meaningful sentences. Through creative activities and role play, the children explored these occupations with enthusiasm. In literacy, the children were introduced to the sounds "Sss" and "Aaa" through the Jolly Phonics programme and can now recognise these sounds and name words that begin with them. In mathematics, they showed great progress by recognising numbers up to 5 and counting confidently up to 20. The children also enjoyed special moments together, including celebrating 100 Days of School and a fun pyjama party day, filled with shared activities and smiles.

SPINNING SPIDERS

Teacher: Reem Taha

UPCOMING THEME

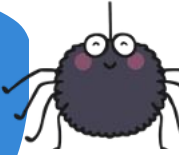

We are going to continue learning about occupations throughout the upcoming weeks. They will learn about doctors, dentists, vets, nurses, cooks, bakers, scientists, and engineers. We'll engage in hands-on activities, role-play, and crafts to help our little ones understand and appreciate the diverse jobs that make our community thrive. They will enjoy field Trips as we are going to visit the clinic to learn about healthcare heroes, and get a thrilling tour of the firetruck. They will have fun while wearing different costumes, showing off their career dreams in a fun costume parade. Through role-Play they will play doctor, vet, police officer, firefighter, singer, postman, and more in creative settings like a clinic, vet office, mechanic shop, and restaurant. And with sensory Fun muddy construction site, they will enjoy play, and do other creative activities, getting everyone hands-on. We will go forward with Jolly Phonics and introduce new sounds (T, I) with different fun activities. Also, with mathematics, we will learn to recognise numbers up to 8.

SPINNING SPIDERS

Teacher: Reem Taha

UPCOMING THEME

Skills We'll Be Focusing On

- **Personal & Social Skills:** sharing, turn-taking, empathy, and resolving conflicts with support
- **Communication & Language:** using new vocabulary, asking questions, and explaining ideas
- **Physical Development:** using tools (scissors, brushes), dressing skills, and fine motor control
- **Early Literacy & Maths:** letter sounds, mark making, counting, and number recognition
- **Understanding the World:** learning about community helpers and caring for others

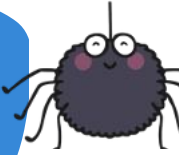

How You Can Support at Home

- Talk about jobs you see together (at home, in shops, or on the street)
- Encourage role-play using simple props (doctor kit, cleaning cloths, letters)
- Read books about community helpers and talk about how they help others
- Praise independence with dressing and self-care routines
- Encourage kind words and problem-solving when playing with others

DREAMY DRAGONFLIES

Teacher: Nourhan Youssef

WHAT WE HAVE BEEN LEARNING

This month in the Dragonflies class, the children have been exploring a range of learning experiences linked to My Body and Keeping Safe, supporting their development across the Early Years areas of learning.

A key focus this month was helping children understand their bodies and how to take care of them. The children learned about body parts, how to use them safely, and the importance of looking after themselves. We also introduced the concept of private body parts, helping children understand that these areas are private, that no one is allowed to touch or see them, and what they can say or do if they ever feel uncomfortable. We discussed the importance of underwear in keeping private areas covered and protected.

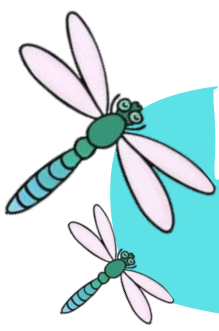

This learning was supported through the stories Pantosaurus and the Power of Pants and Aliens Love Underpants, which the children really enjoyed and engaged with enthusiastically.

Communication and Language

Our main focus was on extending vocabulary, particularly through naming, grouping, and exploring the sounds and meanings of new words. This was supported through interactive activities such as:

- Show and Tell – Name, Group, Sound: Children selected familiar objects or picture cards linked to our theme, such as body parts. They were encouraged to name the object, and identify the initial sound.
- Sound Bags – What's Inside?: Children took turns choosing items from bags containing objects or picture cards (such as hand, sock, hat). With adult support, they named the item, identified the beginning sound (for example, "sock – /s/"), and grouped it into categories such as body or clothes.

Throughout these activities, children were encouraged to take turns, listen to one another, and develop confidence in speaking, while adults modelled and extended vocabulary.

DREAMY DRAGONFLIES

Teacher: Nourhan Youssef

WHAT WE HAVE BEEN LEARNING

Personal, Social and Emotional Development (Confidence and Self-Expression)

To support children in becoming confident speakers who can express their needs, interests, and opinions, we introduced Spin and Speak.

Children used a spinner with phrases such as "I like," "I love," and "I don't like," and completed sentences about themselves. This activity supported turn-taking, clear speech, and self-confidence, while adults encouraged children to expand their answers and express their thoughts.

Understanding the World

Our focus was on noticing similarities and differences. The children traced and painted their own bodies, then displayed them side by side. Together, we observed and discussed similarities and differences such as hair colour, eye colour, and height. Children were encouraged to use descriptive language such as different, longer, shorter, and to talk about what they noticed.

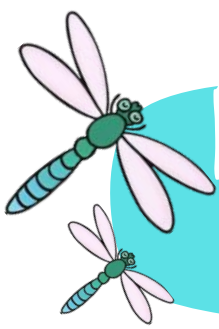

Phonics

In phonics, the children practised reading simple CVC words such as sat, pat, sit, pan, tap, sip, and tip. They showed great independence in recognising letter sounds and attempting to blend them to read words.

Mathematics

Our main focus in maths was ordering two or three items by length. Through measuring our bodies and comparing heights, children used mathematical language such as short, long, shorter, taller, and tallest, developing their understanding of size and comparison.

In addition, to celebrate 100 Days of School, the Dragonflies practiced counting in tens up to 100, counting 10, 20, 30, and onwards to 100. This supported their counting skills, and understanding of number order in a fun and meaningful way.

DREAMY DRAGONFLIES

Teacher: Nourhan Youssef

UPCOMING THEME

The Dragonflies will continue exploring the All About Me theme, with a focus on Family Members and People Who Care for Me. During this time, the children will learn about different family members and explore a variety of family structures. We will encourage discussions around belonging, love, and care, helping children understand that every family is unique and that what matters most is feeling safe, loved, and cared for.

Following this, the children will begin learning about homes, including the names of different rooms, common furniture, why we need these items at home, and how to use them safely.

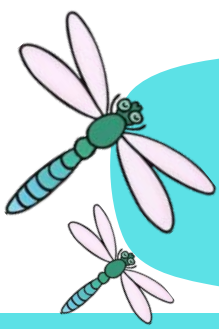

Personal, Social and Emotional Development (PSED)

Our focus will be on helping children describe themselves in positive terms and talk about their abilities. This will be supported through the activity "I'm a Special Piece of Our Class", where children will explore what makes them special and recognise their own strengths within the group.

Literacy

In literacy, children will continue to develop early phonics skills by linking sounds to letters, naming letters and saying their sounds. This will be supported through engaging games such as Hidden Letters – Say the Sound and Roll a Letter.

DREAMY DRAGONFLIES

Teacher: Nourhan Youssef

UPCOMING THEME

Communication and Language

The children will develop their ability to use language to imagine and recreate roles and experiences in play situations. This will be supported through a Role Play Area: My Home, set up with furniture, dolls, kitchen items, and phones. Adults will model simple role-play language such as "I am the mum," "I am cooking," and "It's bedtime," and encourage children to talk about the roles they take on and what is happening in their play.

Physical Development

We will focus on helping children handle tools, objects, construction, and malleable materials safely and with increasing control. This will be supported through activities such as My Family playdough mats and other fine motor experiences linked to the theme.

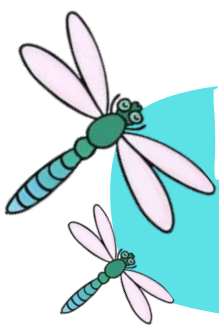

Mathematics

Our maths focus will be on counting actions or objects that cannot be moved. Through the activity Counting Body Actions, children will count actions such as blinks, nods, toe taps, and arm swings. Children will be encouraged to count out loud while completing the actions, with adult support to help them keep track of numbers.

Expressive Arts and Design

The children will explore what happens when colours are mixed through activities such as Mixing Colours Sensory Bags, along with other creative experiences that encourage curiosity, exploration, and creativity.

اللغة العربية

Teacher: Randa Ali

الأهداف التعليمية

1. أن يتعرف الطفل على شكل حرف التاء (ت) في أول الكلمة ووسطها وآخرها.
2. أن يتعرف الطفل على صوت حرف التاء وينطقه بشكل صحيح.
3. أن يربط الطفل حرف التاء بكلمات تبدأ به.
4. أن يكتب الطفل حرف التاء بشكل صحيح.
5. أن يميز الطفل حرف التاء بين باقي الحروف.

الأدوات التعليمية:

- بطاقات تحتوي على حرف التاء وكلمات تبدأ به - صور لكلمات تبدأ بحرف التاء - أقلام و أوراق للرسم والكتابة - سبورة
 - فهم المشاعر والمعكوسات مع تكوين الكلمات للأطفال
- هذا الشهر، ركزنا مع اطفالنا على تعليم الأطفال مهارات اللغة والذكاء العاطفي بطريقة ممتعة وتفاعلية. هدفنا كان مساعدة الأطفال على فهم المشاعر المختلفة، التعرف على المعكوسات، وتكوين الكلمات باستخدام الحروف التي تعلموها.

المعكوسات: تعلم الأضداد

- المعكوسات هي كلمات تحمل معنى عكس كلمة أخرى. تساعد هذه المهارة الأطفال على توسيع المفردات وفهم العلاقات بين الكلمات.
- أمثلة على المعكوسات التي تعلمها الأطفال:

- كبير ↔ صغير - طويل ↔ قصير - سريع ↔ بطيء - فوق ↔ تحت
- مفتوح ↔ مقفول - سعيد ↔ حزين - نظيف ↔ متسخ - حار ↔ بارد

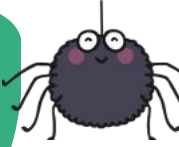

التعبير عن المشاعر

- تعلم الأطفال كيف يتعرفون على مشاعرهم ويعبرون عنها بطريقة صحيحة:
- السعادة: فرح، حب، رضا - مثال: اللعب مع الأصدقاء
 - الحزن: حزن، اشتياق، خيبة أمل - مثال: فقدان لعبة مفضلة
 - الغضب: غضب، انفعال، استياء - مثال: أخذ شيء بدون إذن
 - الخوف أو القلق: خوف، توتر، قلق - مثال: أول يوم في المدرسة
 - الدهشة أو المفاجأة: دهشة، اندهاش، حيرة - مثال: رؤية شيء جديد
 - أحاسيس الطقس: الحر والبرد - تعلم التعبير عن شعورهم تجاه الجو
